

Back To the Bread Line

IF WILSON'S TARIFF IS NOT REPEALED

President Wilson: You are boasting to the voters, through your Department of Commerce and Bureau of labor, what your Administration and Congress have done for American wage-earners in work provided and payrolls increased for them.

One of your Labor Bureau Bulletins tells of the hundreds of thousands of unemployed bread-winners put to work in the latter part of your term.

But it is a fact, and you know it is a fact, that all of these bread-winners had full employment when you took office and lost that employment by reason of the tariff legislation enacted at your dictation.

You know it is a fact that in the fall of 1914 those hundreds of thousands of American wage-earners were out of work because of the tariff, framed, enacted and put into operation under your personal supervision and at your behest.

It is a fact, and you know it is a fact, that while foreign goods were checked from pouring into our markets by the American tariff system of the Republican party, this country bought abroad in 1912, \$581,000,000 less goods than it sold abroad.

It is a fact, and you know it is a fact, that in the first six months of 1913, during four months of which you were President, but during all of which the Republican tariff was still in operation, our imports were \$286,000,000 lower than our exports.

It is a fact, and you know it is a fact, that in the whole year of 1913, during ten months of which you were President, but during only three months of which your tariff was in operation, our imports were \$691,000,000 lower than our exports.

But it is a fact, and you know it is a fact, that in the first six months of 1914, with your tariff in operation all those months, this country followed the deadly path of larger and larger imports, driving American industries out of business and American wage-earners out of work, in favor of foreign capital and foreign labor.

It is a fact, and you know it is a fact, that in January, 1913, under the Republican tariff, we sold abroad \$64,000,000 more than we bought abroad; but in January, 1914, under your tariff, only \$49,000,000 more.

That in February, 1914, under the Republican tariff, we sold abroad \$44,000,000 more than we bought abroad, but in February, 1914, under your tariff, only \$25,000,000.

That in March, 1913, under the Republican tariff, we sold abroad \$31,000,000 more than we bought abroad, but in March, 1914, under your tariff, only \$4,900,000.

That in April, 1913, under the Republican tariff, we sold abroad \$53,000,000 more than we bought abroad, but in April, 1914, under your tariff, we bought abroad \$11,000,000 more than we sold abroad.

It is a fact, and you know it is a fact, that in the five months from April to August, 1913, inclusive, under the Republican tariff, we sold abroad \$218,000,000 more than we bought abroad, but in the corresponding months of 1914, under your tariff, we bought abroad \$39,000,000 more than we sold abroad.

It is a fact, and you know it is a fact, that your tariff ceased to work havoc with American industries and business and to impoverish American labor only when the war came to dam off, at the source abroad, those cheap labor imports which you had allowed to flood our markets.

It is a fact, and you know it is a fact, that it was the war which put our wage-earners back to work, in spite of your tariff, but that the moment the war stops thousands of munition plants will go out of business and hundreds of thousands of wage-earners employed in them will go off their payrolls.

And more,—that many other industries now supported by the day and night activity of our munition plants and by the vast earning power of the wage-earners in them will be compelled to close down in part or in whole.

Then when those hundreds of thousands of our own wage-earners suddenly lose their employment and the twelve to twenty million wage-earners of the Old World now engaged in war return to their normal occupations, and their surplus products of peace are allowed to flood into this country again as they were flooding in until the outbreak of the war, the work of ruining American industries, which was begun by your tariff before the war, must be completed after the war; the American wage-earners put into the bread-line by your tariff but taken out by the war, must, with peace restored, go back into that bread-line of your making in 1914.

Therefore, President Wilson, when you ask American wage-earners to vote, on November 7th, for your tariff, you ask them to vote to live in a Fool's Paradise of war trade for mere months or weeks, only to be plunged by that tariff immediately afterward back into pauperism and the bread line.

ORRINE DESTROYS LIQUOR HABIT

Keen interest in Orrine, the scientific treatment for the drunk habit, now on sale at our store, continues unabated. Yet this is not surprising when it is realized that it can be given secretly at home with absolute confidence, and that it quickly destroys all desire for whiskey and other intoxicants. ACHES AND PAINS

Don't neglect a pain anywhere, but find out what causes it and conquer the cause. A pain in the kidney region may put you on your back tomorrow. Don't blame the weather for your swollen feet. It may be an advanced warning of Bright's disease. A pain in the stomach may be the first symptom of appendicitis. A break in a joint may be the forerunner of rheumatism. Chronic headaches more than likely warn you of serious stomach trouble. The best way is to keep in good condition day in and day out by regularly taking GOLD MEDAL HAARLEM OIL CAPSULES. Sold by reliable druggists. Money refunded if they do not help you. Beware of substitutes. The only pure imported Haarlem Oil Capsules are the GOLD MEDAL.—Adv.

witnessed the performances of "Carmen" and "Il Trovatore" Monday and Tuesday evenings at Convention hall. Representative of the intellect, culture and wealth of Tulsa and Oklahoma, the two gatherings of music loving and society folk, numbering in all about ten thousand, stand unsurpassed.

And as to their appreciation of the best there is in music, it is certain that the bewitching and fascinating "Carmen" and the wonderful "Il Trovatore" never received a more enthusiastic or sincerely warm ovation than that which was accorded each on her respective appearance.

Much Wealth There.

Lest we should be called nouveau riche, we hesitate in mentioning the fact that the two audiences, so far as wealth was concerned, represented upwards of \$20,000,000 in Oklahoma oil and real estate and that the apparel and jewelry worn by the women in attendance could not be rivaled anywhere.

However, the finest consideration of the whole undertaking was the fact that the men and women, too, who were instrumental in giving Tulsa the privilege of the two incom-

parable opera productions succeeded well in their object of bringing something which otherwise might have been the privilege of the few, for the enjoyment and uplift of the community.

Both were applauded liberally and the club took a rising vote of thanks to Mrs. Greer.

Don J. Davidson was Rotarian yesterday and was responsible for the unlooked-for entertainment. The regular speakers were E. A. Huston of the Sinclair Oil & Refining Co. who gave a brief but instructive talk on the improvement made in recent years in oil fields accounting, and C. E. McCune, who made a short talk on "Profits in Retail Business."

MANY TO GATHER AT TRAIL MEET

Thousands Have Signed Intention of Attending Oklahoma City Convention.

Special to The World.

OKLAHOMA CITY, Nov. 1.—Delegates to the Ozark trail convention at Oklahoma City, November 21-22, already appointed and signified their attendance number into the thousands. These men are coming from every town and city on or near the proposed transcontinental highway between St. Louis and Los Angeles. Among them are the governors of at least three states. It will be a gathering of the foremost men in these respective communities and the convention will be notable for the high class of its delegates.

Those most enthusiastic regarding this highway are men with intimate knowledge of the value of other transcontinental lines to the communities through which they pass. They assert that to a comparatively new region such as Oklahoma and New Mexico with great undeveloped natural resources the value of an ocean to ocean highway would be of even greater value. The strength of this argument is obvious.

The convention itself will be the largest in numbers of delegates of any convention of any character ever before held in Oklahoma. Hotels are preparing to care for all who come by requisitioning, if necessary, the aid of private residences.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By repeating the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.
